The whole town's flipping. Smokey has built a sanctuary that's strictly for the birds, but Benny and his rock group find it a great place to practice. The cranes do a little whooping up of their own and Smokey has to do some quick thinking to keep things from ending on a sour note. Tune in on the next delightful issue of SMOKEY BEAR.

STAMP AND COIN
COLLECTOR'S CORNER
by GEORGE ALLARD

AUSTRIAN STAMP RECALLS THE AGE OF OPERETTA

The splendor of the operetta is inseparably associated with the splendor of the social structure of a monarchy. As a rule, it accompanies this kind of a social structure from its splendid heights to its decline. The operetta paints a glorifying or sarcastic picture of the world of emperors and queens, of princes and countesses. The end of the French Empire under Napoleon III also marked the end of the world of Offenbach .

The captivating charm of the already declining world found its expression of greatness and splendor in the Viennese classic operetta. From Johann Strauss to F. Lehar; from K. Millocker to E. Kalman, from Suppe to Oscar Strauss and from Heuberger to Robert Stolz — the melody of the Viennese operetta conquered the world.

To commemorate these "Famous Operettas" the Austrian Postal Authorities are issuing a series of Special postage stamps.

THE WASHINGTON PRESS

The 1970-71 edition of the "U.S. Specialized Catalog of First Day Covers" has gone into a third printing. With the increased interest in first day covers, a catalog that provides up-to-date market values becomes paramount. This popular 90-page item costs $1.00 at your stamp dealer's. © 1971, WESTERN PUBLISHING COMPANY, INC.

NORWEGIAN SCIENTISTS

The Norwegian Post Office will issue, in the course of the next ten years, three series of postage stamps depicting Norwegian natural scientists who have rendered a particular contribution to Norwegian and international research.

The first series issued in late 1970 in denominations of 40, 50, 70 and 100 ore, depict the Norwegian zoologists Georg Ossian Sars, Hans Strom, Johan Ernst Gunnerus and Michael Sars. The stamps will all be printed on phosphorescent paper.

COINS and MEDALS

These are the "Ten Most Wanted" Coins on the list of every serious collector:

1943S Cent — 191,550,000 demand is high for uncirculated coins.

YOUR FUTURE

GOLD KEY CLUB COMICS

© 1971, WESTERN PUBLISHING COMPANY, INC.

In the GRAPHIC ARTS

You will enter a fascinating field of one of our chief means of communication if you choose a profession in the graphic arts. Although much of the work is done by men, women find many opportunities as stenographers, secretaries, bookkeepers, artists, writers, editors, proofreaders, monotype operators, computer typists, bindery workers and numerous other positions in many areas of the industry.

Qualifications vary greatly, depending on the area in which you choose to work. In general, however, you should be interested in the printed word, have good eyesight, be mentally alert and able to work well with others. An artistic sense is essential in some positions, while manual dexterity is very necessary in others.

A high school education is required for over all general duties in the graphic arts industry, and business training is needed for the general and specialized office worker. Other positions, such as typesetting and proofreading, require specific training, and a college degree is necessary for the creative artist or writer.

Semi-skilled women perform many duties in the industry with good pay, and highly skilled women command top wages and benefits.

YOUR FUTURE

As a PRINTING CRAFTSMAN

You will enter a leading industry which is a time honored art as well, if you choose the world of printing. The allied crafts, known as graphic arts, offer an almost endless variety of occupations.

In general, you would specialize in copy preparation, art preparation, type composition, photography, platemaking, press work or binding. However, there are numerous occupations in each of these categories, all requiring specific training.

To become a printing craftsman you must usually serve an apprenticeship, which lasts from four to six years. The training covers all phases of the particular trade and related subjects.

To be selected for apprenticeship you must have a high school education with a basic knowledge of grammar and mathematics, in most fields. Knowledge of chemistry, electronics and physics is becoming increasingly important, as more electronic processes are used.

Craftsmen and semi-skilled workers in the printing industry are among the highest paid workers in manufacturing, with many major fringe benefits, and with few seasonal lay-offs and the printing craftsman finds a constant demand for his talents the world over.

There's CHARLIE BROWN'S ALL-STARS, all about the only baseball team in the world whose line-up includes boys, girls and a beagle . . . A CHARLIE BROWN CHRISTMAS, where Lucy actually admitted that Charlie had the best Christmas tree of all — even if he was a blockhead . . . HE'S YOUR DOG, CHARLIE BROWN, when Snoopy almost got sent back to finishing school . . . IT'S THE GREAT PUMPKIN, CHARLIE BROWN, where one of our country's most distinguished flying aces was actually mistaken for the Great Pumpkin himself . . . YOU'RE IN LOVE, CHARLIE BROWN, with the little red-headed girl . . . and IT WAS A SHORT SUMMER, CHARLIE BROWN. Where the gang went off to camp — and Snoopy and Lucy fought each other for the coveted wrist-wrestling championship. All six are yours to examine and enjoy in your home for 10 days, free.

It's a marvelous gift for any family — for laughter lovers of all ages! This deluxe boxed set is available only by mail. Send no money. Just fill out and mail the order form today!
